Driving TEAM USA to Compete in England in July

For the first time, United States disabled drivers will compete with European teams in a combined driving event. Driving TEAM USA, sponsored by the United States Cerebral Palsy Athletic Association will travel to Hartbury College in Gloucestershire for the 1994 World Championships for Disabled Riders, which for the past three years has included a competition for disabled drivers. More than a dozen nations will field driving teams.

United States Driving for the Disabled, Inc., founded by Sybil Dukehart some years ago, and based in Jarrettsville, MD, has been instrumental in assembling and preparing the four drivers who will compete as TEAM USA in the event to be held July 21-24 in southwest England. These drivers, selected from a group of twelve hopefuls, will meet April 25 for a training session with two members of the US Pairs Team that competed at Gladstone last year. Keady Cadwell and Gary Stover will work with TEAM USA members on skills, and will also brief them on competition strategies.

"International competition is crucial", says Mrs. Dukehart, "for it increases the visibility of therapeutic driving, and it expands the horizons and capabilities of all disabled drivers." This was seconded by a TEAM USA member, Mary Gray, of Cumberland, ME, who competes "mainstream" in CDEs but found out about driving only after she couldn't compete as a rider

any longer. Another TEAM USA member, Tom Turner of Ruxton, MD, began driving only a short while ago, although he says, "I was around horses in my youth." (He's all of 37 now.) "I'm paraplegic, and I only found out about driving from a wheelchair by luck. I think it's the greatest!" He added that it would be exciting in July to see how everyone else does it.

Gray and Turner will be joined by Cindy Goff of Lexington, KY and Rebecca Merritt of Chalfont, PA. Four coaches will accompany the drivers to England: Mary Alice Goss (NJ), Sally Stump (PA), Mary Woolverton (CO) and Audrey Bostwick (PA). Mickie Bowen (PA) will serve as Chef d'Equipe.

It's clear from watching the drivers that they are not "DISABLED." They are, in fact, extraordinarily "ABLED." By anyone's standards, many drive well. Many compete without special allowances. Many care for their own animals and vehicles, with and without assistance, just like the rest of us. All have a courage and enthusiasm that is an inspiration. I hope that ADS members will give their support to this special TEAM USA as it journeys to represent our "disabled" drivers for the first time in a full scale CDE. For information about the event, or to make a tax-deductible contribution to TEAM USA, call Mickie Bowen, Chef d'Equipe, at 410-692-5487 or write USDFD, Inc. at P.O. Box 264, Jarrettsville, MD, 21084-0264.

A Message From the President

1994 is one fourth over and it is busy as ever. I've heard that the "snow" is finally melted up north, but here in the sunny south, we are in our most beautiful season, with dogwoods, azaleas, and red buds in full bloom.

In the east, entries were up at both Live Oak and YellowFrame Farm CDEs, two wonderful events and I've just read that the Arizona CDE also hosted over forty competitors. It appears that "Driving is Alive and Well" all over the land!

The calendar of events seems longer than ever and many new shows and events are listed. This is encouraging and I hope there is a new show or event in your vicinity. If there isn't, grab the bull

by the horns and organize one! If a sanctioned show/event is too difficult to start with, think about a clinic that can include a few classes or start a marathon with a few simple obstacles. Are we all aware that educational clinics can obtain financial assistance, if needed, through Hoopes-Addis with ADS approval? It is an excellent way to get an event or show started in your area.

In my first two messages, I requested suggestions from you, the members, for ways to meet the goals of the ADS. Very few have responded so far. Let us hear from you so we can best serve the needs of the driving community.

High Country International Driving Event

Calgary's High Country Driving club is hosting an International Combined Driving Event Labor Day Weekend, September 3,4,5, 1994.

Enthusiasm for organizing such an event has been inspired by the response to a widespread questionnaire circulated to CDE and ADS members in Western Canada and adjoining regions of the ADS in the United States.

The organizing committee was further supported by the agreement of Mr. Jack D. Pemberton, from Toronto, Ontario, well known International CDE Judge and Mrs. Holly Pulsifer, Ipswich, MA, International CDE Technical Delegate and Course Designer to preside over the event and assist its structure.

The event will be recognized by the Canadian Equestrian Federation and the Canadian and American Driving Societies. Preliminary, Limit and Open as well as Intermediate Divisions will be offered based on responses to the questionnaire.

The Event will be hosted by Rob and Donna Peters on their ranch near Millarville, Alberta, approximately 25 miles southwest of Calgary. This Ranch has been the site of ridden Three Day Event Championships for over 30 years.

The Driving event is immediately followed by the well known Spruce Meadows Masters Show Jumping Tournament and EquiFair. The Remington Carriage Collection and Museum is two hours south at Cardston, Alberta.

Inquiries should be directed to: Mrs. Yvette Swendson, Site 1, R.R. 9, Calgary, Alberta, T2J 5G5. Phone: 403-256-7171.

Pacific Region to Hold Driven Dressage Festival

The 1994 Pacific Region Driven Dressage Festival, sponsored by Brass Oak Driving Society, will be staged at Vulcan Mesa Ranch in Atascadero, California, May 27-30. Taking advantage of the four-day holiday, the Festival Judge and Clinician, Bill Long, will judge classes on Saturday afternoon and Sunday, and hold clinics on Friday, Saturday and Monday. Auditors (fee) will be welcomed at the clinics. Spectators will be welcomed at the Festival.

The Festival, initiated last year by California Central Coast's own "r" Pleasure Driving Judge, Linda Fairbanks, featured Judge and clinician Teri McFarland, of Riverside, CA, in 1993. Enthusiasm for the inaugural Festival resulted in a sizeable waiting list for places this year.

Long is a World Champion driver best known for four-in-hand teams in CDE's but he also has a growing, well deserved reputation as judge and clinician. Most recently in the West he judged the annual CDE at Goree's in Coolidge, AZ, where he was joined by his wife, Linda, who both scored and scribed. Bill and Linda always bring great enthusiasm to any carriage driving event.

High point trophies, awards and ribbons will reward drivers in a total of 18 classes at Training, Preliminary and Intermediate Levels, horses and ponies. A raffled seven-day houseboat vacation donated by Antler's Resort Lake Shasta, will augment show proceeds to be donated to the Shriner's Children's Hospital Transportation Fund.

Further information may be obtained by calling Linda Fairbanks 805-466-2814.

Combined Driving Notes

by Holly Pulsifer

At the Combined Driving Forum in Washington, D.C., I proposed that we develop rules for HORSE DRIVING TRIALS which would be similar to ridden Horse Trials. They would require less time, money, space and volunteers to organize than a 3 day event. Your comments are welcome on the following ideas:

A HORSE DRIVING TRIAL usually taking place on one or two days, consists of Dressage, followed by the Marathon or Cones, in either order. The Marathon is only one section - E, up to 10 km. long. The number of horses that a competitor may enter and drive is at the discretion of the Organizer.

Levels of competition that may be offered at a Horse Driving Trial:

*Advanced: Advanced Dressage Tests; Marathon: 8-10 km; 6-7 Obstacles; slopes; 2.5 m. gates; narrow options; Cones: 20-30 cm at 230 mpm.

*Intermediate: Intermediate Dressage Tests; Marathon 6-8 km.; 6-7 Obstacles; slopes; 2.5 m. gates and narrower options; Cones 30-35 cm. at 220 mpm.

*Preliminary: Preliminary Dressage Tests; Marathon 4-6 km.; 4-6 Obstacles; 2.5 m. gates; Cones 40-45 cm. at 200 mpm.

*Training: Training Dressage tests; Marathon under 4 km. 3-4 Obstacles; 3 m. gates and routes; Cones 45-50 cm. at 180 mpm.

TWO DAY EVENTS are designed as preparatory competitions for Three Day events. They provide experience for competitors and horses in the longer Marathon Test. However, by scheduling the Cones Phase before the Marathon, and by using shorter distances, the stress on the horse is reduced. A 2-DAY DRIVING EVENT consists of Dressage and Cones on the first day, followed by a Marathon. Specifications are the same as for Horse Driving Trials at the equivalent level, but the Marathon introduces a moderate phase A and B. Unless the number of entries makes the scheduling feasible, a competitor may not drive more than one horse in a Two-Day Event. The following levels of competition may be offered at a Two-Day Event:

*Intermediate

*Preliminary

3 DAY DRIVING EVENTS consists of three distinct tests, taking place on separate days during which the competitor drives the same horse throughout and may only compete with one entry. The marathon is between 16 and 27 km. with 7-8 Obstacles. Levels offered are:

*Advanced

*Intermediate

What If?

A whip and his three passengers are on an organized pleasure drive and is surprised by an unexpected stream or water which the organizer had failed to mention. The stream had to be crossed in order to continue the drive. The horse had never crossed water.

What if —

- The horse does his best to avoid crossing the water?
- The horse decided to jump the stream?

And what if -

- After crossing the stream, the horse unexpectedly takes the rather steep bank out at a rather sharp angle?

Continued next page

"What If" continued

Comments by James Laird: One of the main considerations a whip should have is that his horse should be prepared for almost anything when it goes off the farm. One of the main problems for horses is water. Practice at home before you leave to get your horse ready. I have seen all these situations occur and all of them need a lot of prayers, if you haven't made your horse comfortable with puddles and streams.

If your horse tries to avoid getting his feet wet, get your groom or other half to try to lead your horse into the stream. Once his feet are wet, he will usually go on.

If he decides to jump, try to stop him, but if he does jump, hope for no broken traces, shafts or wheels.

If he stops and paws in the middle, keep him going with your voice and whip. He will end up getting you just as wet as himself if you let him do it for long.

If your horse goes up the bank at the wrong angle, first try to stop and get him back into the stream before he goes up over the top and you and your guests are on the ground and he is long gone. I have seen many drivers trot their horses through the water. I think this is unsafe. A slow walk is sufficient and gives the driver time to counter what the horse might do.

Horses and Horse Drawn Vehicles Wanted For Ovid's Carriage Days

The organizers of the Ovid, Michigan Carriage Days celebration are encouraging the participation of horse drawn vehicles in the 125th birthday event June 25-26, 1994.

A parade entitled THEN AND NOW will be at 10 a.m. Saturday and horse drawn vehicles are welcome to be in the parade and spend the weekend. Hitching posts will be around town, water available, possible overnight camping and street sweepers provided.

The festivals name derived from the Ovid Carriage Factory, known in recent times as the Vaughn Seed Company building. After a lengthy search, the Ovid Downtown Developmental Association purchased an Ovid Carriage Factory buggy that will be on display that weekend.

Costumes from the 1870-1900 time period will add atmosphere. Other events to visit that weekend include a home tour, antique show, antique car show, antique farm equipment display, a costume birthday ball, pictorial review of the village, civil war campout and battle re-enactment, and mounted sheriff posse on patrol.

Contact person for registration or for more information; Mrs. Susan Bettys; (517) 723-7456

W.H.I.P.

(The Who/What, How, Information, Problems, column)

Edited by Leslie Manley

Dear W.H.I.P.,

I am organizing an event for our driving club and am putting together the premium. I have heard about "house rules" but I don't really know what that means. I've been involved in the organizing before but this is the first time I've put together a premium. What are they (house rules) and do I need to use them?

Also, I want to be sure to allow mules to compete in our CDE without having to go hors de concours. I know the rules don't allow that right now, but we have a couple of competitors that drive mules. How should I handle this?

- Event Organizer

Dear Event Organizer,

Your second question about allowing mules can be handled through the use of "house rules" as well as the new general rule (Article 14.6) I will now go into some detail about house rules.

House rules are rules that the event organization creates for that specific event. If certain conditions exist that are not covered by the ADS rules, it can be taken care of with house rules. For example, a CDE marathon is using county dirt roads. Working with county officials, the event found it did not have to have police traffic control provided they (the carriages) do not create traffic jams and that each carriage has a slow moving vehicle sign. This event created a house rule that stated the following: "Slow moving vehicle signs are required on all entries on the marathon. No entry will be allowed to start on the marathon without a SMV sign under penalty of elimination." This event also made sure there were a couple of extra signs available that competitors could either buy or rent for the marathon.

In your case, you could create a rule that specifically allows mules. For instance, it could possibly say: "Mules are encouraged to compete at this event. They should enter the appropriate horse or pony division based on their height." This rule could be used by both a CDE and a pleasure show. Special rules for miniature horses can also be used to allow them to compete.

The biggest thing to remember about house rules, whether they are for a CDE or for a pleasure show is to be sure that they promote safety. If there is a penalty for not following the rule, be sure to state that in the rule. In some cases, it might be wise to enhance the text to draw the competitor's eye to it and "force" them to read it. It can also help to include another copy of the house rules in the competitor's packets.

Safety Tip

When in attendance at an organized driving function it would be very unlikely you would get through an entire day without needing to pass, or being passed by another vehicle. If you have a problem with your horse when another vehicle comes around there are a few things you should consider.

First, and most important you should work on correcting the problem before planning on driving with a group. Now there are some horses who may not relax in a group regardless of your preparation. Also it could be difficult to work on a problem such as this if there aren't any other drivers who live in your area. In any event you should try to stay aware of where you are in the group and try to keep your horse in a position he will work comfortably in. If he doesn't like to be passed you shouldn't place him in or near the front of a group.

When put in a situation that requires you to pass another vehicle you should choose a spot where there is ample room for both carriages. Call out to the vehicle you are going to pass, letting them know which side you intend to come around. When they have their animal well in hand and have acknowledged, **PASS WITH CARE**

CALENDAR OF EVENTS

*indicates an ADS approved competition

All driving activities may be listed in the Calendar, but as space is limited, please submit only dates of activities that are open to all ADS members.

Space does not allow us to list all local club activities that are restricted to local club members.

The CDE Gourmet

FOIL BARBECUED CHICKEN

The Versatile Chicken is lower in calories than most other meats, and high in Protein. For a savory treat at the next CDE or recreational drive, cook it over the coals wrapped in heavy-duty aluminum foil.

SAUCE

1	3-pound frying chicken, cut up	1	med. onion, sliced
1/2	cup flour	1	tsp. salt
1	teaspoon salt	1	tbls. vinegar
1	dash of pepper	1	tbls. Worcestershire sauce
1	tsp. paprika	1	tbls. sugar
1/3	cup butter or margarine	1/4	cup catsup
		1/4	water

Combine all sauce ingredients in a saucepan and bring to a boil. Simmer for about 15 minutes. A bottled barbecue sauce can be substituted for convenience. Coat chicken pieces with flour, salt, pepper and paprika in a paper bag. Place chicken pieces on large lightly oiled squares of **heavy-duty foil** and top with pat of butter or margarine. Cover with barbecue sauce. Seal package and place on medium-hot coals for about 1 hour, turning occasionally. Serves to to 8.

Note: All dry ingredients may measured and mixed at home if desired. Plan your menu, make packs for each meal. Or send someone out for KFC. **NOT!**
